DETAILED ACTION

Allowable Subject Matter

1. Claims 1-68 are allowed.

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 1-53 is the inclusion of logic configured to receive a request for a system reset, wherein the logic is configured to query a watchdog timer for the expiration of the watchdog timer in response to receiving the request for a system reset, in the integrated circuits and computer system recited in the claims.

The primary reason for allowance of claims 54-68 is the inclusion of receiving a request for a system state change, checking for status of a watchdog timer and denying the request for the system state change if the watchdog timer has not expired, in the methods of operating a computer system recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
